# Bifen IT (Bifenthrin or Crosscheck)

Bifen IT is a liquid insecticide that must be diluted with water according to label directions before application. Mix thoroughly and maintain a uniform suspension. Apply to cracks, crevices, baseboards, wall voids, and other areas where insects harbor or travel, using a low-pressure sprayer or other appropriate equipment. Avoid spraying directly onto food preparation surfaces or areas frequently touched by people. Reapply as needed if insect activity persists. Bifen IT works on contact and residual activity to control a wide range of pests, including ants, roaches, spiders, and other household insects.

# SAFETY DATA SHEET
# Bifen I/T

## SECTION 1: IDENTIFICATION

**Product Name:** Bifen I/T 53883-118 Insecticide; See product label for a complete list of
**EPA Registration No.:** uses and use sites. See product label for any restrictions on the use of this
**Recommended Use:** product. Pyrethroid Bifenthrin: 2-Methyl-3-phenylphenyl)methyl (1S,3S)—
**Restrictions on Use:** [(Z)-2-chloro-3,3,3- trifluroroprop-1-enyl]-2,2-dimethylcyclopropane-1-
**Chemical Family:** carboxylate Control Solutions, Inc. 5903 Genoa-Red Bluff Pasadena, TX
**Chemical Name of Active Ingredient(s):** 77507
**Manufactured for:**

**FOR FIRE, SPILL, AND/OR LEAK EMERGENCIES CONTACT: CHEMTREC1-800-424-9300**
**FOR MEDICALEMERGENCIES AND HEALTH AND SAFETY INQUIRIES CONTACT: Safety Call 1-866-897-8050**

## SECTION 2: HAZARD(S) IDENTIFICATION

**EMERGENCYOVERVIEW:** Eggshell white liquid with a mild chemical odor.

**OSHA HCS CLASSIFICATION (29 CFR 1910.1200)**

| | |
|---|---|
| Acute Inhalation Toxicity | Category 4 |
| Skin Sensitization | Category 1B |

**Signal Word:** WARNING

**Hazard Statement(s):** Harmful if inhaled.
May cause an allergic skin reaction.

**Precautionary Statement(s):**

**Prevention:** Avoid breathing mist/ vapors/spray.
Use only outdoors or in a well-ventilated area.
Contaminated work clothing must not be allowed out of the workplace.
Wear protective gloves.

**Response: IF INHALED**: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell.
**IF ON SKIN:** Wash with plenty of soap and water.
**IF SKIN IRRITATION OR RASH OCCURS:** Get medical advice/attention.
Specific treatment (see first aid section of this document). Wash contaminated clothing before reuse.

**Storage:** No statement required. See section 7 for storage information.

**Disposal:** Dispose of contents/container in accordance with Federal, state and local laws and regulations.

The following percentage of the mixture consists of components with unknown hazards regarding the acute toxicity:

<1.0% Acute dermal toxicity
>90.0% Acute Inhalation toxicity

## SECTION3:COMPOSTION/INFORMATION ON INGREDIENTS

| Chemical Name | CAS Number | Weight % |
|---|---|---|
| Bifenthrin | 82657-04-3 | 7.9% |

*Ingredientsnot listed or listed with a weight % range are considered a trade secret and are withheld under 29 CFR 1910.1200(i).

## SECTION4: FIRST AID MEASURES

| | |
|---|---|
| **IF IN EYES:** | Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eye. Call a poison control center or doctor for treatment advice. |
| **IF ON SKIN:** | Take off contaminated clothing. Rinse skin immediately with plenty of water for 1 5 to 20 minutes. Call a poison control center or doctor for treatment advice. |
| **IF INHALED:** | Move person to fresh air. If person is not breathing, call 911 or an ambulance; then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. |
| **IF INGESTED:** | Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. |

**Most important symptoms/effects, acute and delayed:** Allergic skin reaction.
**NOTE TO PHYSICIAN:** This product is a pyrethroid. If large amounts have been ingested, the stomach and intestine should be evacuated. Treatment is symptomatic and supportive. Digestible fats, oils, or alcohol may increase absorption and so should be avoided.

## SECTION 5: FIRE-FIGHTING MEASURES

| | |
|---|---|
| **Suitable Extinguishing Media:** | Foam, dry chemical, carbon dioxide or water spray |
| **Unsuitable Extinguishing Media:** | Water jet |
| **Hazardous Combustion Products:** | Thermal decomposition may produce toxic carbon and nitrogen oxides. |
| **Special Protective Equipment & Precautions:** | Evacuate area and fight fire upwind from a safe distance to avoid hazardous vapors and decomposition products. Foam and/or dry chemical are preferred to minimize environmental contamination. If water is used, dike and collect water to prevent run-off. Wear self-contained breathing apparatus and full fire-fighting turn-out gear (Bunker gear). |
| **Unusual Fire & Explosion Hazards:** | None known |

## SECTION 6: ACCIDENTAL RELEASE MEASURES

| | |
|---|---|
| **Personal Precautions:** | See Section 8 for personal protection equipment. |
| **Environmental Precautions:** | Keep spilled material and any rinsate from contaminating soil or from entering sewage and drainage systems and bodies of water. |
| **Methods for Containment:** | Isolate the spill area. Keep unnecessary and unprotected personnel from entering. Absorb small spills with sand, vermiculite or other inert absorbent. Dike large spills using absorbent or impervious material such as clay or sand. Recover and contain as much free liquid as possible for reuse. Allow absorbed material to solidify and scrape up for disposal. |

**Methods for Clean-up:** Place contaminated material in appropriate container for disposal. After removal, flush contaminated area thoroughly with water. Pick up wash liquid with additional absorbent and place in a disposable container. Do not put spilled material back in the original container.

**Other Information:** None known

## SECTION 7: HANDLING AND STORAGE

**Handling:** RECOMMENDATIONS ARE INTENDED FOR MANUFACTURING, PACKAGING AND COMMERCIAL BLENDING WORKERS. PESTICIDE APPLICATORS AND WORKERS must refer to the product label and Directions for Use attached to the product for Agricultural Use Requirements in accordance with the EPA Worker Protection Standard 40 CFR part 170. Handle and open container in a manner as to prevent spillage. Do not eat, drink or smoke while handling this product. Immediately wash off accidental splashes of the concentrate or spray mixture from skin, clothing and out of eyes.

**Storage:** **See pesticide label for full information on product storage.** Do not contaminate water, food or feed by storage of this product. Store away from sources of heat, out of direct sunlight and away from incompatible materials. Pesticides should be stored in secured areas away from children and animals.

**Storage Temperature (Min/Max):** Not determined but avoid extreme temperatures.

**Product Incompatibilities:** Avoid contact with strong oxidizers.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

**Users of a pesticide product must refer to the product label for personal protective equipment requirements.**

**Exposure Guidelines:**

| COMPONENT | OSHA PEL | ACGIH TLV | NIOSH REL |
|---|---|---|---|
| No components listed | | | |

**Engineering Controls:** Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs or other specified exposure limits. Local exhaust ventilation is preferred.

**Respiratory Protection:** In areas of poor ventilation, use a NIOSH approved respirator with cartridges/canisters approved for pesticides.

**Eye Protection:** Chemical goggles or safety glasses.

**Protective Gloves:** Chemical-resistant gloves such as barrier laminate, butyl rubber, nitrile, neoprene rubber, polyvinyl chloride (PVC) or Viton.

**Other Protective Clothing:** Long-sleeved shirt, long pants and chemical resistant footwear plus socks.

**General Safety Measures:** Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing immediately after handling this product. Wash outside of gloves before removing. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

| | | | |
|---|---|---|---|
| **Appearance:** | Eggshell whiteliquid | **Upper/Lower Flammability Limits:** | Not determined |
| **Odor:** | Mild chemicalodor | **Vapor Pressure:** | Not determined |
| **Odor Threshold:** | Not determined | **Vapor Density:** | Not determined |
| **pH (1% dispersion):** | 5.8 – 6.2 | **Relative Density (@24°C):** | 1.037 (typical) |
| **Melting /Freezing Point:** | Not determined | **Solubility in Water:** | Dispersible |
| **Boiling Point/Range:** | Not determined | **Partition Coefficient:** | Not determined |
| **Flash Point:** | >212°F (>100°C) | **Auto-ignition Temperature:** | Not determined |
| **Evaporation Rate:** | Not determined | **Decomposition Temperature:** | Not determined |
| **Flammability:** | Not applicable | **Viscosity:** | Not determined |

## SECTION 10: STABILITY AND REACTIVITY

| | |
|---|---|
| **Reactivity:** | No hazardous chemical reactions known. |
| **Chemical Stability:** | Stable under normal storage and handling conditions. |
| **Possibility of Hazardous Reactions:** | No potential for hazardous reactions known. |
| **Conditions to Avoid:** | Extreme temperatures |
| **Incompatible Materials:** | Strong oxidizers |
| **Hazardous Decomposition Products:** | Thermal decomposition may produce toxic carbon and nitrogen oxides. |

## SECTION 11: TOXICOLOGICAL INFORMATION

| | |
|---|---|
| **Likely Routes of Exposure:** | Eye contact, Skin contact, Inhalation, Ingestion |
| **Symptoms of Exposure:** | No overt symptoms. |
| **Oral LD50:** | >3900 mg/kg (Estimated based upon component data) |
| **Dermal LD50:** | >4,200 mg/kg (Estimated based upon component data) |
| **Inhalation LC50:** | No data available. Classification based upon similar material. |
| **Eye Irritation/Damage:** | Not anticipated to be an eye irritant based upon component data. |
| **Skin Corrosion/Irritation:** | Not anticipated to be a skin irritant based upon component data. |
| **Skin Sensitization:** | Potential skin sensitizer based upon component data. |

| | |
|---|---|
| **Chronic/Subchronic Toxicity:** | No data available |
| **Mutagenicity:** | No data available |
| **Reproductive Toxicity:** | No data available |
| **Neurotoxicity:** | No data available |
| **Target Organs:** | Skin |
| **Aspiration Hazard:** | Not anticipated to be an aspiration hazard. |
| **Carcinogenicity:** | The EPA considers bifenthrin to be a possible human carcinogen based upon animal studies. |

| Chemical Name | ACGIH | IARC | NTP | OSHA |
|---|---|---|---|---|
| No components listed | | | | |

## SECTION 12: ECOLOGICAL INFORMATION

**Environmental Hazards StatementfromFIFRARegulatedPesticideLabel:**
This pesticide is extremely toxictofishandaquaticinvertebrates.Toprotect the environmental, do not allow pesticide to enter or run off intostormdrains,drainageditches,gutters or surface waters. Applying this product in calm weather whenrainisnotpredictedforthenext24hours will help to ensure that wind or rain does not blow or wash pesticideoffthetreatmentarea.Rinsingapplication equipment over the treated area will help avoid run off to waterbodiesordrainagesystems.Careshould be used when spraying to avoid fish and reptile pets in/around ornamentalponds.Thisproductishighlytoxic to bees exposed to direct treatment or residues on blooming cropsorweeds.Donotapplythisproductor allow to drift to blooming crops if bees are foraging the treatment area.Donotdischargeeffluentcontaining this product into lakes, streams, ponds, estuaries, oceans, or other publicwatersunlessinaccordancewiththe requirements of a National Pollutant Discharge Elimination System (NPDES)permitandthepermittingauthority has been notified in writing prior to discharge. Do not dischargeeffluentcontainingthisproducttosewer systems without previously notifying the local sewage plant authority.Forguidance,contactyourStateWater Board or Regional Office of the EPA.

## SECTION 13: DISPOSAL CONSIDERATIONS

| | |
|---|---|
| **Waste Disposal:** | **Refer to the pesticide label for full information on disposal.** Pesticide wastes are toxic. Improper disposal of unused pesticide, spray mixture, or rinse water is a violation of Federal law. If these wastes cannot be used according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance in proper disposal methods. |
| **Container Disposal:** | **Refer to the pesticide label for full information on disposal.** When possible, triple rinse the container and offer for recycling if available. |
| **RCRA Characteristics:** | Itis the responsibility of the individual disposing of this product to determine the RCRA classification and hazard status of the waste. |

## SECTION 14: TRANSPORTATION INFORMATION

**DOT (Ground):** Not regulated

**IMDG (Sea):** UN3082, Environmentally hazardous substance, liquid, n.o.s. (Bifenthrin), 9, PGIII

**IATA (Air):** UN3082, Environmentally hazardous substance, liquid, n.o.s. (Bifenthrin), 9, PGIII

## SECTION 15: REGULATORY INFORMATION

**Labeling Requirements Under FIFRA:** This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

CAUTION

Harmful if swallowed, inhaled, or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

**TSCA Inventory:** This product is exempt from TSCA inventory listing requirements as it is solely for FIFRA regulated use.

**SARA Title III Information:**

**Section 302 – Extremely hazardous substances:** None

**Section 311/312 – Hazard Categories:** Acute (Immediate); Chronic (Delayed)

**Section 313 –** This product contains a chemical or chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372:

| Chemical Name | CAS Number | Weight % |
|---|---|---|
| Bifenthrin | 82657-04-3 | 7.9% |

**CERCLA –** This product contains the following chemicals which have a reportable quantity (RQ) under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA):

| Chemical Name | CAS Number | RQ | Quantity of Finished Product |
|---|---|---|---|
| None listed | | | |

**CALIFORNIA PROPOSITION 65:**

| Chemical Name | CAS Number | Prop 65 Category(ies) |
|---|---|---|
| None listed | | |

**U.S. STATE RIGHT-TO-KNOW REGULATIONS:**

| Chemical Name | New Jersey | Massachusetts | Pennsylvania |
|---|---|---|---|
| Bifenthrin | X | | |

## SECTION 16: OTHER INFORMATION

| | | | | |
|---|---|---|---|---|
| **NFPA** | **Health Hazards** 1 | **Flammability** 1 | **Instability** 0 | **Special Hazards** – None |

**Disclaimer:** Control Solutions, Inc. believestheinformation presented herein is accurate and correct as of the document date. The presented informationisbased upon available data from reliable sources.
