Cimexa Dust

Cimexa Dust is a ready-to-use desiccant insecticide. Apply lightly to cracks, crevices, wall voids, and other areas where crawling insects hide or travel. Avoid applying thick layers; a thin, even coating is sufficient. Do not apply directly to food, food preparation surfaces, or areas where humans or pets will have prolonged contact. Reapply if the dust is disturbed or removed. Cimexa works by physically affecting the insects’ protective coating, leading to dehydration and control of ants, roaches, spiders, and other crawling pests.

1. PRODUCT IDENTIFICATION

1.1. Product Identifiers

Product name : CimeXa® Insecticide Dust

1.2. Other Means of Identification

Product synonyms : none

1.3. Recommended Uses/Restrictions to Use

Uses : Amorphous silica gel dust for the control of various pest species per label

Restrictions : See product label for details

1.4. Supplier Details

Company : Rockwell Labs Ltd
1257 Bedford Avenue
North Kansas City, MO 64116-4308
USA

Telephone : 1 816-283-3167

1.5. Emergency Contact

Outside normal business hours

Emergency Phone # : 1 800-424-9300 (USA & Canada)
1 703-527-3887 (Outside USA& Canada)

2.HAZARDS IDENTIFICATION

2.1. Classification of Substance or Mixture

none

2.2. GHS label elements, including precautionary statements

Pictogram(s) none

Signal word none

Hazard statement(s)

none

Precautionary statement(s)

None

2.3. Other hazards which do not result in classification

This product is very absorbent and may have a drying effect on skin and eyes. When exceeding the OEL (Occupational Exposure Limit) a mechanical overburdening of the respiratorysystem is possible.

3. COMPOSITION/INFORMATIONONINGREDIENTS

3.1. Substances

Chemical Identity	Contains (% w/w)	CAS-No.	Hazard Classification
Silicon Dioxide (as amorphous silica)	89-95	7631-86-9	none

3.2. Mixtures

Not applicable

4.FIRST AID MEASURES

4.1. Description of first aid measures

General advice

Consult a physician or poison control center. Provide this safety data sheet to medical personnel. Move out of hazardous areas.

If inhaled

Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice.

In case of skin contact

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

In case of eye contact

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed

Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

4.2. Most important symptoms and effects, both acute and delayed

None known

4.3. Indication of any immediate medical attention and special treatment needed, if necessary

None known

5.FIRE FIGHTING MEASURES

5.1. Extinguishing media

Suitable extinguishing media: use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

5.2. Specific hazards arising from the chemical
No data available

5.3. Special protective equipment and precautions for fire fighters
Wear self contained breathing apparatus for firefighting if deemed necessary.
Additional information: none.

5.4. Further information
Nodata available

6.ACCIDENTAL RELEASE MEASURES

6.1. Personalprecautions, protective equipment and emergency procedures
Avoid contact with spilled product and contaminated surfaces. Evacuate personnel to safe areas during emergencies. For safe handling instructions see section 7. For proper PPE see section 8.

6.2. Environmental precautions
Prevent further leakage or spillage if safe to do so.

6.3. Methods and materials for containment and cleaning up
Sweep up any spilled material and dispose of according to instructions in section 13. Vacuuming or wet sweeping maybe used to avoid dust dispersal. Wash contaminated surfaceswith soapand water.

7.HANDLING AND STORAGE

7.1. Precautionsfor safe handling
Handle in accordance with good industrial hygiene practices. Wash hands thoroughly with soap and water after use and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse. For additional precautions see section 2.2.

7.2. Conditions for safe storage, including any incompatibilities
Store product tightly sealed in original container. Store in a dry location. Do not store where children or animals may gainaccess.

8.EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters
Components with workplace parameters

Component	CAS-No.	Value	Control parameters	Basis
Amorphous silica	7631-86-9	IDHL	3000 mg/m3	-----
		TWA	80 mg/m3/% SiO2	OSHA PEL
		TWA	6 mg/m3	NIOSH REL
		TWA	10*, 5** mg/m3	ACGIH TLV *Total dust, ** Respirable fraction

8.2. Appropriate engineering controls

Ensure relevant engineering controls are employed to prevent exceeding threshold values for the listed control parameters in section 8.1.

8.3. Individual protection measures, such as personal protective equipment (PPE)

In normal use and handling conditions refer to the product label for required PPE. In all other cases the following recommendations would apply.

Eye/face protection

Safety glasses or other similar eye protection conforming to ANSI Z87.1 standards recommended when handling product.

Skin protection

Chemical resistant nitrile rubber or similarly compatible gloves recommended when handling product. Dispose of contaminated gloves after use in accordance with applicable local and state regulations. Wash exposed skin with soap and water immediately. Wash all contaminated clothing prior to reuse.

Respiratory protection

Not required under normal use conditions. When risk assessment shows need for air-purifying respirators use NIOSH approved respirators when handling material with the following airborne concentrations:

Up to 30 mg/m3:

(APF = 5) Any quarter-mask respirator.

Up to 60 mg/m3:

(APF = 10) Any particulate respirator equipped with an N95, R95, or P95 filter (including N95, R95, and P95 filtering facepieces) except quarter-mask respirators. The following filters may also be used: N99, R99, P99, N100, R100, P100.

(APF = 10) Any supplied-air respirator

Up to 150 mg/m3:

(APF = 25) Any supplied-air respirator operated in a continuous-flow mode

(APF = 25) Any powered, air-purifying respirator with a high-efficiency particulate filter.

Up to 300 mg/m3:

(APF = 50) Any air-purifying, full-facepiece respirator with an N100, R100, or P100 filter.

(APF = 50) Any supplied-air respirator that has a tight-fitting facepiece and is operated in a continuous-flow mode

(APF = 50) Any powered, air-purifying respirator with a tight-fitting facepiece and a high-efficiency particulate filter

(APF = 50) Any self-contained breathing apparatus with a full facepiece

(APF = 50) Any supplied-air respirator with a full facepiece

Up to 3000 mg/m3:

(APF = 1000) Any supplied-air respirator operated in a pressure-demand or other positive-pressure mode

Thermal hazards

None known

9.PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties

Appearance; Odor; Odor threshold; pH; Melting point/freezing point; Initial boiling point and boiling range;	White powder Odorless No data available 5% in Water 6.0 – 8.0 (20 °C) >1700 °C (>3092 °F) >1700 °C (>3092 °F)
Flash point;	No data available
Evaporation rate;	No data available
Flammability (solid, gas);	Product is not flammable
Upper/lower flammability or explosive limits;	No data available
Vapor pressure;	No data available
Vapor density;	No data available
Relative density;	No data available
Solubility;	No data available
Partition coefficient: n-octanol/water;	0.121 g/ml
Auto-ignition temperature;	Insoluble
Decomposition temperature;	No data available
Viscosity;	No data available
	No data available
	No data available
	No data available

9.2. Additional Information
No data available

10.STABILITY AND REACTIVITY

10.1. Reactivity
No dangerous reactions known.

10.2. Chemical stability
Stable under recommended storage conditions.

10.3. Possibility of hazardous reactions
No data available

10.4. Conditions to avoid
No data available

10.5. Incompatible materials
No data available

10.6. Hazardous decomposition products

Other decomposition products – no data available
Inthe eventofafire: seeSection 5

11.TOXICOLOGICAL INFORMATION

11.1.Information on toxicologicaleffects

Acute Toxicity
LD50 Oral – Rat – > 5000 mg/kg
LD50 Dermal – Rat – > 6000 mg/kg
LD50 Inhalation – Rat – > 2000 mg/m3/4h
Maximum attainable concentration, mortality does not appear.
Skin corrosion/irritation
Skin – Rabbit
Results: not an irritant
(OECD Test Guideline 404)
Serious eye damage/irritation
Eye – Rabbit
Results: not an irritant
(OECD Test Guideline 405)
Respiratory or skin sensitization
Not a known sensitizer
Germ cell mutagenicity
AMES Test – > 5 mg/plate (in vitro)
Results: negative, with and without metabolic activation
(OECD Test Guideline 471)
Carcinogenicity

IARC:	Category for silica, amorphous (7631-86-9) applies to silicas that may contain crystalline silica. The silica in this product is synthetic and does not contain crystalline silica. IARC: Category 3.
ACGIH:	No component of this product presents at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by ACGIH.
NTP:	No component of this product presents at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by NTP.
OSHA:	No component of this product presents at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by OSHA.

Repeated Dose Toxicity
Oral – NOAEL (90 d) – Rat
Results: 9000 mg/kg bw/day
(OECD Test guideline 408)
Inhalative – NOAEC (90 d) – Rat
Results: 1 mg/m3 (rat)
(OECD Test Guideline 413)
Reproductive toxicity

Oral – NOAEL (maternal toxicity/teratogenicity) – Rat
Results: 1350 mg/kg bw/day
(OECD Test Guideline 414)
Specific target organ toxicity – single exposure
No data available
Specific target organ toxicity – repeated exposure
No data available
Aspiration hazard
No data available

11.2. Other information
No data available

12.ECOLOGICAL INFORMATION

12.1. Toxicity

Toxicity to fish	LC50 – Danio rerio (Zebra Fish) - > 10,000 mg/l – 96 h
Toxicity to daphnia and other aquatic invertebrates	EC50 – Daphnia magna (Water flea) - > 1000 mg/l – 24 h
	EC50 – Scenedesmus subspicatus (Algae) - > 10000 mg/l – 72 h

12.2. Persistence and degradability
Amorphous silica dioxide is chemically and biologically inert. By the insolubility in water there is a separation at every filtration and sedimentation process.

12.3. Bioaccumulative potential
Does not accumulate in organisms.

12.4. Mobility in soil
No data available

12.5. Other adverse effects
No data available

13.DISPOSAL CONSIDERATIONS

13.1.Disposal Methods.
The best disposal method is to use the entire quantity per label directions. If it is necessary to dispose of unused material then follow the label instructions and relevant local, state and federal waste disposal guidelines.

Product Disposal:
Do not contaminate water, food or feed by storage or disposal.
Packaging Disposal:
If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP which is managed as a public-private partnership.
See section 8 for proper PPE and precautionary handling measures.

14.TRANSPORT INFORMATION

DOT
Not dangerous goods
IMDG
Not dangerous goods
IATA
Not dangerous goods

15.REGULATORY INFORMATION

Thischemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

KEEP OUT OF THE REACH OF CHILDREN

CAUTION

Causes moderate eye irritation.
Avoid contact with eyes or clothing.
Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.
SARA 313 Components
This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.
SARA 311/312 Hazards
None
California Proposition 65 Components
This product does not contain any chemicals known to the state of California to cause cancer, birth defects, or reproductive harm.

TSCA
All components of this product are listed, exempted, or excluded from listing on the U.S. Toxic Substances Control Act chemical substance inventory.

16.OTHER INFORMATION

Acronyms andabbreviations used

LD50	Lethal Dose, 50%
