Contrac Blocs

Contrac is a ready-to-use rodenticide block and does not require mixing. Place blocks in tamper-resistant bait stations in areas of rodent activity, such as along walls, near burrows, or behind objects. Do not place bait where children, pets, or non-target wildlife can access it. Inspect bait stations regularly and replace consumed or damaged blocks. Contrac works through ingestion, providing effective control of rats and mice over several days.
